

Electric showers

Our electric showers are packed with exclusive innovations, advanced technology and clever safety features.

Electric showers only use water from your mains cold water supply, making them a great choice for most homes. The big advantage is they don't use any stored hot water at all. They heat the water when you turn the shower on, passing it over a built-in heating element, similar to how a kettle works. Ideal if you have a limited supply of hot water. It's also ready to use whenever you need it, whether your water tank's full or not.

And because they are so economical with water, all Mira electric showers meet the stringent standards of the Bathroom Manufacturers' Association (BMA) for using water efficiently.

Choosing your temperature control

Electric showers have 4 different types of temperature control:

Pressure stabilised controls minimise temperature changes and ensure a consistent showering temperature, even if someone runs a tap.

Advanced pressure stabilised is our pressure stabilised control with the benefit of Mira Opti-flo™ technology. It gives you a wider range of flow rate so you can enjoy the full power of the shower even in the summer when the incoming water temperature is higher.

Thermostatic technology ensures that the temperature won't fluctuate beyond 2 degrees of your chosen temperature. A brilliant safety feature, ideal for families with young children or the elderly.

Advanced thermostatic is the ultimate in safe showering. Electronic technology makes sure that the water temperature is always consistent, usually within 1 degree. Plus every shower in the Mira Advance ATL range has been awarded the BEAB Care marque accreditation, making them ideal for the healthcare sector.

Key technologies

Mira Sensi-flo™ prevents scalding if there's a drop in water pressure or if the showerhead or hose becomes blocked.

Mira Clearscale™ incorporates DualElement™, phased shutdown and rub-clean nozzles. This reduces limescale by 50% so your shower performs better and lasts longer.

Mira Opti-flo™ gives you a wider range of flow rate so you can enjoy the full power of the shower. Ideal in the summer months when incoming water temperature is higher.

Mira DualElement™ the heater tank runs at cooler temperatures ensuring constant power throughout the element. This reduces 'hot spots' where limescale tends to accumulate.

Overview - electric showers

We've got a wide range of electric showers to choose from, which are available in different kilowatt power ratings. Look for a higher kilowatt rating if you want a more powerful flow. All of our electric showers are approved by the BMA as being Water Efficient. If you would like more information on any of our electric showers, please call us on **0844 571 5000** or visit **www.mirashowers.co.uk**

When buying an Electric shower you will notice that the kilowatt ratings are given are based on 240 volts. As Ireland operates at 230 volts we have included a table that converts the power rating. If you have any queries please discuss with your installer.

UK and Ireland kW conversions

240v (UK)	230v (Ireland)
7.5kW	6.9kW
8.5kW	7.8kW
9.0kW	8.2kW
9.5kW	8.7kW
9.8kW	9.0kW
10.8kW	9.9kW

Mira Vie

A contemporary, affordable, long lasting shower.

Product features

- Pressure stabilised temperature control maintains selected showering temperature
- Separate power and temperature controls with push button on/off
- Eco setting designed to save water and energy
- Clearscale™ technology cuts limescale by 50% for a better performing, longer lasting shower
- Single spray showerhead with rub clean nozzles for easy limescale removal

SPRAY TYPES

Mira Jump

Stylish and easy to fit, Jump is designed to replace any existing electric shower.

Product features

- Pressure stabilised temperature control maintains selected showering temperature
- Separate power and temperature controls with push button on/off
- Eco setting designed to save water and energy
- Clearscale™ technology cuts limescale by 50% for a better performing, longer lasting shower
- 4 spray showerhead with rub clean nozzles for easy limescale removal

Mira Sport

The UK's best selling electric shower. Reliable, easy to fit and easy to use.

Product features

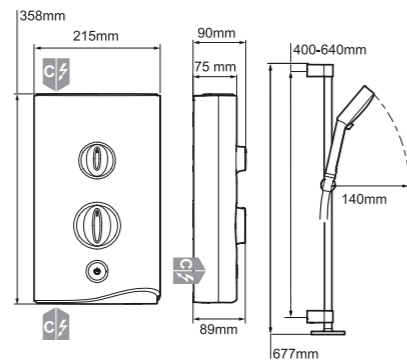

- Advanced pressure stabilised temperature control keeps selected showering temperature consistent
- Separate power and temperature controls with a push button on/off
- Sensi-flo™ prevents scalding in the event of a loss of water pressure or if the showerhead or hose becomes blocked
- Clearscale™ technology cuts limescale by 50% for a better performing, longer lasting shower
- Opti-flo™ optimises flow throughout the year
- Phased shutdown flushes hot water from the tank to make it safe for the next user
- Large 110mm 4 spray showerhead with rub-clean nozzles for easy limescale removal

Adjustable slide bar fits over holes left by a previous shower kit

Mira Sport Multi-fit™

The ultimate retrofit. Sport Multi-fit™ will retrofit over more products than any other electric shower on the market.

Product features

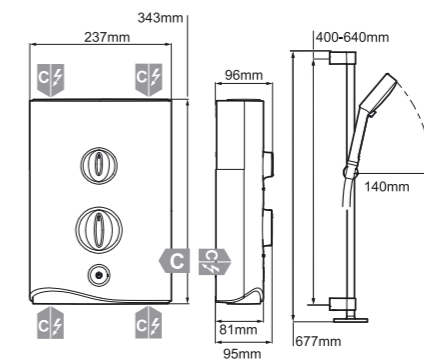

- Advanced pressure stabilised temperature control keeps selected temperature consistent
- Separate power and temperature controls with a push button on/off
- Sensi-flo™ prevents scalding in the event of a loss of water pressure or if the showerhead or hose becomes blocked
- Clearscale™ technology cuts limescale by 50%
- Opti-flo™ optimises flow throughout the year
- Phased shutdown flushes hot water from the tank to make it safe for the next user
- Large 110mm 4 spray showerhead with rub-clean nozzles for easy limescale removal
- Accepts pipework and cables from the left or right

Mira Sport Max with Airboost™

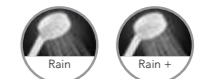

Mira Sport Max with Airboost™ is a world first for electric showers. The patented Airboost™ technology adds air induction to boost showering experience without adding more water.

Product features

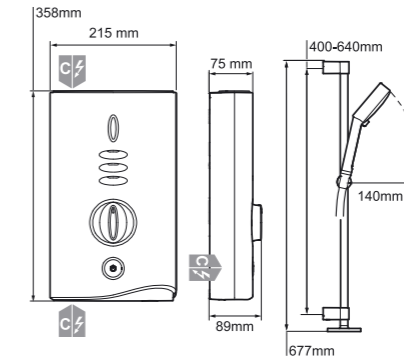

- Airboost™ boosts water flow by up to 30%
- Advanced pressure stabilised temperature control keeps your selected showering temperature consistent
- Separate power and temperature controls with a push button on/off
- Clearscale™ technology cuts limescale by 50% for a better performing, longer lasting shower
- Sensi-flo™ prevents scalding in the event of a loss of water pressure or if the showerhead or hose becomes blocked
- Opti-flo™ optimises flow throughout the year
- Phased shutdown flushes hot water from the tank to make it safe for the next user

SPRAY TYPES

Mira Sport Max with Airboost™
Electric shower, white/chrome finish.
9.0kW 1.1746.007 £398.40
10.8kW 1.1746.008 £434.40

Adjustable slide bar fits over holes left by a previous shower kit

Mira Elite ST

The choice if your water pressure is too low or erratic for a standard electric or mixer shower.

Product features

- An integrated pump provides a strong and consistent flow, whatever the temperature
- Advanced pressure stabilised temperature control keeps your selected showering temperature consistent
- Separate power and temperature controls with a push button on/off
- Sensi-flo™ prevents scalding in the event of a loss of water pressure or if the showerhead or hose becomes blocked
- Clearscale™ technology cuts limescale by 50% for a better performing, longer lasting shower
- Opti-flo™ optimises flow throughout the year
- Phased shutdown flushes hot water from the tank to make it safe for the next user

Mira Advance ATL

Safe, precise, thermostatically controlled showering for complete peace of mind.

Product features

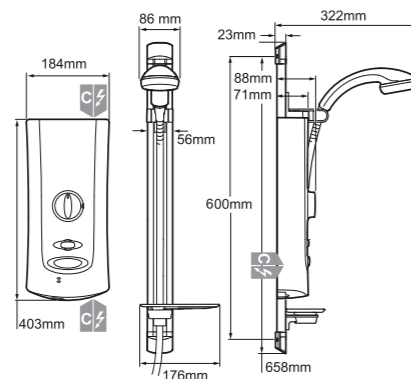

- Separate power and temperature controls with a select and forget function
- Adjustable Temperature Limit - select your maximum temperature from 8 different settings
- Phased shutdown flushes hot water from the tank to make it safe for the next user
- Tactile raised areas with a large on/off button, backlit buttons and an audible beep to aid navigation
- Easy to use slide bar and friction bracket which can be adjusted with one hand and is wall or corner mountable
- Best in its class for reducing limescale build-up
- 4 spray showerhead with rub-clean nozzles for easy limescale removal
