# YOUR GROHE KITCHEN EVERY DAY

GROHE is cooking up a storm in the kitchen. With designs to match all styles of interior, all installations and all budgets, our enticing portfolio of kitchen products will exceed your expectations.

Just as a great meal combines beautiful presentation, fresh ingredients and nutritional value, our mixers perfectly balance quality, technology and design. Using only the finest materials and the latest industry-leading technologies, GROHE kitchen mixers deliver years of reliable performance – day in, day out.

An appetising mix of product features makes light work of daily tasks and will impress even the most reluctant home chefs. And a generous seasoning of practical features, such as pull-out sprays and mousseur, low-pressure models and mixers for pre-window installation, ensures all of your needs are covered.

Fusing award-winning design with innovative functionality, our Premium Lifestyle Collections appeal to passionate people who settle for nothing less than perfection. Our successful K7 kitchen mixers range is the choice of home chefs who want superb style and professional performance.

Our latest addition is GROHE Zedra Touch. With its innovative EasyTouch technology it instantly reacts to the slightest touch, meaning you can turn the water on and off by touching anywhere on the mixers with just the back of your hand, wrist or forearm. Zedra Touch stays clean, when your hands are not.

Now we can offer you EasyTouch products in two distinctive designs - Minta Touch and the new Zedra Touch.

GROHE Performance kitchen lines offer a wide choice of spout heights and product features, making them the ideal choice for family kitchens. Coordinating ranges of bathroom mixers and fittings are also available, to create a cohesive look throughout your home.

Our Kitchen Water Systems – GROHE Blue® and GROHE Red® – redefine what is possible in the kitchen. By delivering instant filtered, chilled and kettle hot water straight from the mixers, they achieve a new level of function and convenience. And now we are delighted to offer GROHE Blue® in two more GROHE designs, K7 and Minta, to ensure it complements all styles of kitchen.

For functionality, innovative features and award-winning design, GROHE is the connoisseur's choice, every time.

David J. Haines

# THE GROHE KITCHEN

Water is used for cooking the world over. We need running water in the kitchen up to 90 times each day. We take it so much for granted that we often don't think of water when we hear the word 'kitchen'. We think of well-filled refrigerators, aromas wafting from the oven and of tables laid ready for dinner. We forget what works hardest in the kitchen: the kitchen mixers. Something that is used this frequently must be durable – and since kitchens are increasingly becoming living spaces, it also has to look good. That's why ergonomics, functionality, aesthetics and durable finishes are so important in GROHE kitchen products.

## **GROHE's promise to you is that you will have it easy. For a lifetime.**

High-quality materials, outstanding design and innovative technologies ensure that your GROHE products will last a lifetime. Our mixers levers feature GROHE SilkMove® technology, making them extremely easy and precise to operate even with greasy hands. Intensive daily use leaves its traces. Normally. However, GROHE StarLight® chrome resists scratches and ensures a lifelong glossy finish. And if you like the look of stainless steel, you'll love our SuperSteel® finish. For professional-level endurance choose RealSteel®, made from solid stainless steel. However, it's not just with lifelong, perfect function that GROHE impresses in the kitchen, but also with form and finishes that please the senses.

## **True style shines through in daily life.**

From modern, Cosmopolitan single-lever mixers, through our timeless Contemporary lines to the Authentic style two-handle mixers, you will find exactly the right mixers to match your aesthetic ideals. Countless designs and spout heights give you huge scope when choosing your kitchen furniture and sink; while pre-window models, integrated dishwasher shut-off valves and low pressure variants ensure there's a model to meet all of your installation requirements.

## **Professional sprays for home use.**

Many of our models are available with pull-out mousseurs and sprays, a convenient and time-saving feature when rinsing salad leaves or washing greasy pans. Even with intensive use of the mixers. And you will be amazed at the adaptability and flexibility of our side and professional sprays.

## **Tap water takes its place at the table.**

GROHE serves you top-quality drinking water directly from the mixers – from cold to kettle hot. For filtered, chilled and carbonated water, choose GROHE Blue® Chilled & Sparkling. The GROHE Blue® Pure filter system is perfect for those who like still, non-chilled water. GROHE Red™ delivers kettle hot water directly from your mixer, without the wait. For a quick pasta meal, for a hungry baby, for a coffee now and again and so much more.

## **One-touch convenience**

Our new EasyTouch products, Minta Touch and Zedra Touch, stay clean when your hands are not. Thanks to innovative EasyTouch technology, you simply touch the mixer at any point with the back of your hand, wrist or forearm to turn it on and off.

# PURE FREUDE AN WASSER MOMENTS OF TRUTH

Ongoing investment in research and development allows us to turn world-leading technologies for bathrooms and kitchens into reality. Our products have been created to last a lifetime, to be both easy and intuitive to operate and to make the use of water a pleasure.

**GROHE SilkMove®**  
Smoothest handling for effortless precision and ultimate comfort for a lifetime.

**GROHE StarLight®**  
Made-to-last surfaces ranging from precious matt to shiny like a diamond.

**GROHE CoolTouch®**  
No scalding on hot surfaces thanks to 100% GROHE CoolTouch®.

**GROHE EcoJoy®**  
Save precious resources and enjoy 100% water comfort.

**GROHE Digital®**  
Intuitive digital technology at your fingertips.

**BlueCore™ by GROHE**

The distinctive blue-coloured components at the heart of GROHE products highlight GROHE's leading performance and quality.

# HANDS ON GROHE KITCHEN FEATURES

Accommodating your every wish and desire, GROHE water systems and kitchen mixers include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

## RealSteel

Made of solid stainless steel – a robust material with anti-bacterial properties.

## EasyTouch

Just touch the tap at any point with your wrist, elbow or just your fingertip to turn the tap ON and OFF.

## ProfessionalSpray

Features a 360° spring arm and easy switching between the spray and mousseur.

## Pull-Out Dual Spray

Increases operating radius of the faucet and offers easy switching between mousseur and the spray.

## Pull-Out Mousseur Spray

Increases operating radius of the tap and offers different sprays.

## Pull-Out Mousseur

Increases the operating radius of your faucet.

## SideSpray

The spray is mounted to the side of the tap.

## OpenWaterHeater

The perfect flow in combination with open water heaters.

### StopValve

Includes a dishwasher shut-off valve on the tap body.

### PreWindow

To open the window, just lift up the tap and lay it flat on the surface.

### SpeedClean

Remove lime scale with a single wipe.

### ComfortHeight

Height of the spout allows easy filling of large pots.

### SwivelStop

Limited turn angle prevents flooding.

### SmoothTurn

Extra smooth movement of all swivel spouts for easy handling.

### Forward Rotating Lever

Forward rotating lever prevents the lever hitting the backsplash.

### HandCrafted

These exquisite pieces are refined and hand-polished by skilled artisans.

### ExtensiveRange

A wide choice of designs to meet your functional and installation needs.

### Enhanced Water

Superior-quality water direct from the kitchen tap – saving time, money and the environment.

### ChildLock

Integrated safety mechanism prevents unintentional opening by young children.

### Titanium Inside

All boilers in our GROHE Red® collection are made from titanium.

# GROHE PREMIUM LIFESTYLE COLLECTIONS

GROHE treats the kitchen with the respect it deserves. It's so much more than just a workspace. It's where you spend most of your time, it's the heart and soul of your home and it's often furnished to a correspondingly high standard. That's why GROHE kitchen mixers deliver more than you expect in every respect. The workmanship, durability, innovation and design will satisfy more than just those with an appreciation for beauty. Home chefs who demand the same functionality as professionals sum up the characteristics of GROHE kitchen mixers in just one word: perfect.

# GROHE K7 / K7 F-DIGITAL

A fusion of crisp, architectural styling and professional attributes, the K7 collection appeals to culinary experts who settle for nothing less than the best.

And now, the innovative of GROHE K7 F-digital, anyone who wants unrivalled performance in the kitchen can enjoy a new level of comfort and convenience. A single touch is all it takes to start and stop the water flow from your kitchen mixer. And thanks to wireless digital technology, the digital controller can be fixed in a convenient and ergonomic location. In front or to the side of the sink bowl, on the splash back or next to the base of the spout – we let you decide.

# GROHE K7 F-DIGITAL

K7 F-digital fuses the latest technology with award-winning design, resulting in a kitchen mixer that is ergonomic, convenient and water efficient.

## Unlimited Flexibility

Place the Digital Controller wherever you want. The surface-mounted controller is battery powered, so there's no need to drill a second hole in the work surface.

## Save Water and Energy

Use the Pause function while cleaning up or rinsing dishes to help reduce your water and energy consumption.

## The Perfect Temperature at a Glance

A ring of coloured light on the controller gives you visual feedback as you change the water temperature.

## Personalise the Experience

Once you've found your perfect combination of water temperature and flow, use the memory function to save your settings.

## Convenience and Safety

The flow of water stops automatically after an individually pre-set time. This smart function enables you to fill a sink at the touch of the button and, for total security, prevents overflows and flooding.

Press the on/off button to start the water flow.

Turn the ring which surrounds the controller to adjust the water flow.

Use the minus (-) button to decrease the temperature.

Use the plus (+) button to increase the temperature.

# GROHE K7

When GROHE wanted to create a range of beautiful mixers that also delivered the uncompromising performance of the commercial kitchen they enlisted the help of professional chefs. The result was K7, a modular range of one-hole and two-hole mixers with regular and professional side sprays that offers architects total control and flexibility.

# GROHE EASYTOUCH LOVE AT FIRST TOUCH

GROHE Touch mixers most innovative feature is something you can't even see – but after just one touch you'll be smitten. They offer you the ability to control the flow of water in your kitchen with nothing more than a touch from your wrist, forearm or the back of your hand, ideal for all busy cooks and their helpers.

Your mixer remains clean and bacteria free, no matter how many times you need to turn it on, or what you're cooking at the time. And because the GROHE technology is completely concealed within the mixer, you can enjoy the same quality of uninterrupted design as on all our mixer ranges. Choose the Touch function in a cold water version or upgrade to include warm water controlled by a thermostat – either way GROHE Touch mixers are as safe as they are hassle-free.

Minta Touch has been approved and recommended for use by disabled people and the elderly. It has been tested and rated "good" by the Institute for Gerontotechnik for Barrier Free Building, due to its one-touch operating technology and ergonomic design.

Simple activation/deactivation of the waterflow by touch.

Manually control

# GROHE TOUCH BENEFITS

Innovative, easy-to-use and immensely practical, the advantages of GROHE's Touch mixers are obvious. Inside GROHE's elegant design is the latest technology to keep your kitchen clean all day long. Touch anywhere on the spout once with your wrist or forearm and cool water springs from the mixer. Touch again and it stops. No hand prints or greasy marks on the lever. No problem.

The benefits in a busy kitchen are both practical and visual. Leaving the mixers sparkling surface free of marks, this light-touch control prevents cross-contamination in your kitchen caused by germs and bacteria on the lever. It also reduces the burden of cleaning. You can cook up a storm and start and stop the flow of water as often as you like without leaving a trace on your mixer.

Safety is paramount, especially if you have little ones in the kitchen. That's why the EasyTouch function is available with cold water, so there is no risk of scalding. Prefer warm water too? Simply upgrade with our Grohtherm Micro, a small thermostat fitted under the sink that delivers the perfect temperature every time, with no danger of scalding.

# GROHE ZEDRA TOUCH LOVE AT FIRST TOUCH

GROHE  
SilkMove®

GROHE  
StarLight®

Elegant, functional and ergonomic, Zedra is the natural choice for today's hard-working kitchen. And now it is available with even more ingenious technology with the introduction of the Zedra Touch.

Turn the water flow on and off with just a touch to the spout with your wrist or forearm. No more mucky finger prints to clean and no fear of cross contamination. The sleek design with a wide swivel spout remains unchanged, but the immaculate finish will stay cleaner, for longer. Choose your Touch function in a cold water-version or upgrade with an under-sink Grohtherm Micro thermostat for perfectly controlled warm water and no danger of scalding.

GO ONLINE

Modern, timeless, beautiful. GROHE's successful kitchen range Minta takes another step on with our latest innovation.

The GROHE Minta Touch comes with a small but distinctive difference: with its EasyTouch technology, it instantly reacts to the slightest touch, letting you turn it on and off without leaving a mark. There is no need to use the lever if your hands are dirty from cooking. Just tap with the wrist or forearm for perfect control every time.

This practical, hygienic technology is seamlessly integrated, meaning Minta retains the same gorgeous good looks as before. It's available as a curved C-shaped swivel-spout with pull-out mousseur spray or the striking L-shaped swivel spout with pull-out mousseur - the choice is in your hands.

# GROHE ZEDRA

A contemporary kitchen also makes the time we spend in it more enjoyable. It has to run like clockwork so that you can enjoy your time in the kitchen and still have time for other important tasks. GROHE Zedra is perfect in this respect.

# GROHE ZEDRA

Zedra combines contemporary design and maximum functionality with proven reliability for rigorous use. The body flows elegantly into the wide swivel spout, offering distinctive design alongside everyday practicality, and there have never been so many function options to choose from.

The Zedra mixer with pull-down spray has been completely redesigned with a cleaner spray design and a new dual control button with locking feature, making switching between spray modes effortless. Zedra comes in two high-quality finishes: our high-gloss GROHE StarLight® chrome or the durable GROHE RealSteel with anti-bacterial properties. Whichever you choose, GROHE SilkMove® will ensure long-lasting smooth movement. GROHE SpeedClean lets you remove limescale from the nozzle with a single wipe.

china  
2006

Master chefs are used to having specialists at their disposal for all tasks. From the saucier to the pâtissier, they can call on a perfectly coordinated team. It's no different in your kitchen. It's just that your team is much more compact: a single multi-tasker, the GROHE K4 kitchen mixer.

You can easily meet all the requirements in your kitchen with the K4 series. The gently curved shape with 360° swivel spout and a pull-out spray with SpeedClean® for easy removal of limescale from water nozzles guarantee reliable and convenient operation - ensuring more freedom in your daily kitchen tasks.

From a technical point of view, the GROHE K4 impresses with true robustness. GROHE SilkMove® guarantees smooth movement, even after years of hard use. And the GROHE StarLight® chrome finish will keep your mixer shining like new for years to come.

# GROHE ATRIO

GROHE  
SilkMove®

GROHE  
StarLight®

Classic dishes are just as delicious today as a hundred years ago. This won't change in the next hundred years either, since good taste is as enduring as the design of the GROHE Atrio mixers. The individual look of the elegant two-handle mixers with arched spout or single-lever sink mixer with L-shaped spout lends GROHE Atrio a timeless quality that will add a refined edge to any kitchen style. The Bauhaus-influenced design with stepped escutcheon, slim mixer body and a tubular spout can be carried on throughout the house, thanks to a coordinating collection of bathroom products.

Also timeless is Atrio's glossy finish. GROHE StarLight® chrome provides lasting protection against dirt and scratches. Also enduring is the high ease of operation afforded by the smooth GROHE SilkMove® technology.

GROHE  
StarLight®

GO ONLINE

The new GROHE Parkfield mixer is inspired by the simplicity of nature and the elegance of Classical forms. The design offers users a tactile experience with a rounded lever and curved body, beautifully highlighted by both the GROHE StarLight® chrome and Supersteel finish options. Ease of use is at the heart of Parkfield, with a pull-out spray with locking feature that lets you switch easily between two spray modes, perfect for rinsing the sink or washing vegetables. The mixer also incorporates GROHE's SpeedClean nozzles, which lets users remove limescale with a single swipe of the finger. Parkfield's mix of comfort, flexibility and perfect control not only makes preparing food easy, but cleaning up afterwards is a breeze too.

# GROHE EUROPLUS

Europlus balances a modern appearance with intelligent ergonomics. The sculptured lines of the body, enhanced by the GROHE StarLight® chrome finish, run seamlessly into the lever and radiate style. The lever is set at a slight angle of seven degrees to simplify handling and is extremely easy to operate thanks to GROHE SilkMove® technology. The medium spout height will accommodate the largest of pans, while the pull-out spray is an extra help for ambitious chefs. The range also includes a version for installation in front of a window.

# GROHE EURODISC COSMOPOLITAN

In the same way that a great meal is a result of carefully balancing flavours, textures and nutrition, your kitchen mixers should be a balanced combination of design and practical features. Well considered details that work for you and the installation requirements of your kitchen. Fortunately, Eurodisc Cosmopolitan offers enough choice and design nutrition to satisfy the most demanding chefs.

# GROHE EURODISC COSMOPOLITAN

In developing Eurodisc Cosmopolitan, we thought about people who are not so easily satisfied. These discerning individuals will recognise the attention to detail and nuances. The high-gloss chrome finish elegantly emphasises the tapered edges. You can expect the same perfection in the functionality of the mixer as in the form.

You can choose between three different spout heights, different versions and countless installation options. Whatever choice you make, you are guaranteed an attractive appearance and easy operation over the lifetime of the mixer, thanks to GROHE SilkMove® cartridges and GROHE StarLight® chrome finish.

# GROHE CONCETTO

Like the finest desserts, Concetto is a visual feast for the eyes on the outside and a tempting delight on the inside. Whether it's the choice of spout shapes or the mix of practical features, which delight at every turn, the collection mixes all the essential ingredients required to add the finishing touch to your kitchen.

# GROHE CONCETTO

Concetto combines stylish minimalist design with superior ergonomics to reflect the core values of the Cosmopolitan design. Consisting of a series of cylinders, an arched or medium height spout rises elegantly from the sink. Its purist beauty is highlighted by the high-gloss GROHE StarLight® chrome or the matt SuperSteel finish which repels dirt and prevents tarnishing. GROHE SilkMove® technology enables fingertip control of water flow and temperature. And all with an unbeatable price/performance ratio.

# GROHE EUROSTYLE COSMOPOLITAN

No two kitchens are the same. What works in one environment is not necessarily right for another, which is why we offer kitchen mixers with different spout heights and with or without pull-out sprays. This level of choice is just one of the reasons why Eurostyle Cosmopolitan is the perfect addition to kitchens with style and Cosmopolitan flair.

# GROHE EUROSTYLE COSMOPOLITAN

Eurostyle Cosmopolitan will play a leading role in your kitchen and not just in terms of functionality. With a choice of three spout heights it also sets the tone for the design of your kitchen.

Two unique GROHE technologies, GROHE SilkMove® and GROHE StarLight®, guarantee years of smooth operation and a durable glossy finish. With its wide range of different models, the collection will meet all of your needs, whatever they may be. Versions with a pull-out mousseur and with mixer that can be installed in front of a window are available.

Eurostyle Cosmopolitan also complements the architecture of your kitchen and leaves nothing to be desired.

# GROHE EUROSMART COSMOPOLITAN

In an over-complicated world, sometimes it's nice to keep things simple. Freshly-cut crudité's dipped in aioli or a bowl of strawberries with a splash of balsamic vinegar – with fine ingredients a 'less is more' approach works best. And this is the approach we took when designing Eurosmart Cosmopolitan, focussing only on the essentials and giving them a fresh Cosmopolitan twist.

# GROHE EUROSART COSMOPOLITAN

The new Eurosmart Cosmopolitan collection of kitchen mixers combines the clean, geometric lines of modern architecture with durable technology. They offer an impressive balance of modern aesthetics and excellent ergonomics. The swivel spout is convenient and easy to use – the ideal complement to any sink.

Proven technologies such as GROHE SilkMove® for precise and smooth control and the high-gloss GROHE StarLight® chrome finish ensure the functionality and a flawless appearance, even after many years of use. The GROHE EcoJoy™ version of the Eurosmart Cosmopolitan kitchen mixer effortlessly saves water and energy. GROHE EcoJoy™ reduces the maximum flow rate to 5.7 litres per minute. And all with an unbeatable price/performance ratio.

# GROHE WATER SYSTEMS

# GROHE WATER SYSTEMS

GROHE Blue® is fitted with filter technology that transforms an ordinary tap water into pure fresh water without the aftertaste of heavy metals, limescale or chlorine. Convenient and eco-friendly, the filter cartridge purifies up to 600 litres of water and is easy to replace. The mixer, which delivers either filtered or unfiltered water at the twist of a lever, is finished in GROHE StarLight® chrome for enduring good looks.

# GROHE BLUE®

## NO NEED TO CARRY HEAVY WATER BOTTLES

Water is the most fascinating of all the elements on our planet. And water preferences can be as individual as taste in design. With GROHE Blue®, we can cater to your exact tastes. Do you like your water still, lightly sparkling or sparkling? Filtered directly from the fitting in your own kitchen? Your wish is our command.

GROHE Blue® combines outstanding design and innovative technology. A high-performance filter, cooler and carbonator deliver a pure taste experience – just as easily as using a standard kitchen fitting. The temperature and intensity of the water flow are regulated as usual using the fitting's operating lever, while the left rotary knob with integrated LED display regulates the carbonic-acid content of the filtered and chilled water.

But maybe you also want your mixer to express your taste in design? With GROHE Blue® technology, you get four outstanding fitting designs. Choose between the classic GROHE Blue® with C- or U-shaped spout, the GROHE Blue® K7 or the GROHE Blue® Minta.

If you do not want to give up your tried-and-tested kitchen fitting but still want to enjoy the benefits of the GROHE Blue®, we have another solution for you: the 'Mono' version of GROHE Blue®.

The Mono pillar tap can be simply installed on your worktop in harmony with your existing kitchen fitting. The best thing about this tap? It is designed to make filling containers like the GROHE Blue® carafe child's play – for a refreshing, individual taste experience.

Following huge demand for a GROHE Blue® with pull-out spray function, we are pleased to announce that the GROHE Blue® K7 is now also available with a separate pull-out spray to make working in the kitchen even easier.

# GROHE BLUE®

## NO NEED TO CARRY HEAVY WATER BOTTLES

### **Less environmental impact, more convenience**

GROHE Blue® combines convenience and a healthy lifestyle in one environmentally-conscious package. Compared to the pollution and energy consumption caused by filling and transporting bottled mineral water, filtering tap water has a negligible environmental impact. GROHE Blue® saves resources and money, since seven litres of water are needed to put just one litre of bottled water on a supermarket shelf. Energy is also saved, as heavy bottles no longer need to be carried home and time and resources spent recycling them.

### **More taste**

GROHE Blue® premium kitchen mixers feature a revolutionary high-performance filter that removes the impurities that affect the taste and odour of ordinary tap water – heavy metals, chlorine and limescale – and so delivers the clean, refreshing taste that is expected from bottled mineral water. Two separate internal waterways – one for filtered water and the other for unfiltered water – and an innovative mousseur ensure that once the water has been filtered it never comes into contact with anything that may taint its taste.

### **Safety technology**

The unique GROHE Blue® water systems deliver fresh, great-tasting filtered water from the convenience of your kitchen mixer whenever you want it – 24 hours a day, 7 days a week. An LED display on the mixer handle indicates when the water filter needs to be changed. The light flashes when the filter capacity is less than 10%. The filter lasts up to 12 months, has a capacity of 600 litres and can be adjusted to the hardness of the water. The GROHE Blue® Pure Starter Kit comprises the mixer, an under-sink filter and a GROHE Blue® glass carafe whose elegant form reflects the purity of the water.

## The most precious resource in the safest hands

Water is not only the world's most precious resource, but also the basis of all living things. GROHE and BWT, Europe's leading water professionals, represent safety, hygiene and the highest quality standards. We have combined the expertise of our two companies to deliver a completely new water experience.

Tap water is now transformed into pure refreshment, using the innovative GROHE Blue® product range. GROHE Blue® filters the water with technology supplied by BWT and then cools it down to the ideal temperature for you to enjoy, providing still water with fine bubbles or effervescent, sparkling water straight from the tap. BWT's global innovation offers all water gourmets a refreshing tasting water, filtered by BWT's unique, patented Mg<sup>2+</sup> technology and enriched with magnesium. Just perfect for your everyday drinking indulgence.

### FUNCTIONALITY

### AVAILABLE IN DIFFERENT SIZES AND FUNCTIONS

GROHE Blue® filter 600-3000 litres

GROHE Blue® Activated carbon filter

GROHE Blue® Magnesium+ filter

### SEPERATED INNER WATER WAYS FOR 100 % PURENESS

To ensure that GROHE Blue® water does not come in contact with unfiltered water or with metal parts after filtering, the high-quality fitting features two separate lines – one for the ordinary mains water and one for the purified GROHE Blue® drinking water. This prevents its taste from becoming tainted.

unfiltered water

# GROHE BLUE® CHILLED & SPARKLING NO NEED TO CARRY HEAVY WATER BOTTLES

GO ONLINE

Still, lightly sparkling or sparkling water? GROHE Blue® Chilled & Sparkling combines the modern look of a designer mixer with a high-performance filter, cooler and carbonator – and is as easy to use as an ordinary kitchen mixer. The right lever on the mixer is used to mix hot and cold tap water as usual. The left rotary knob with integrated coloured LED display regulates the carbonic acid content of the filtered and chilled water. The light flashes when the filter capacity is less than 10%.

The carbonator integrated in the built-in box adds especially fine bubbles of carbonic acid to the filtered and chilled water to produce lightly sparkling or sparkling water according to taste.

# GROHE BLUE® PURE PURE ENJOYMENT

GO ONLINE

GROHE Blue® Pure is the alternative solution for people who prefer the natural taste of still water. Using the unique GROHE Blue® filter technology it turns ordinary tap water into fresh water, removing all of the substances that can impair its taste. Finished in GROHE StarLight® chrome, the mixer has separate internal waterways – one for filtered water and the other for unfiltered water.

**Blue:**  
Still water

# GROHE RED<sup>®</sup>

Kettle hot water. In the past you would have needed a pot or kettle, now it comes directly from the mixer. The innovative GROHE Red<sup>®</sup> boiler system keeps four to eight litres of kettle water ready for immediate use at all times.

Cooking pasta

Making tea and coffee

Removing the skin from tomatoes and other fruit

# GROHE RED®

Take a moment to count up just how many times you need boiling water in the kitchen. When you're looking forward to a nice cup of tea, when you want pasta in tomato sauce this instant, when the baby's crying with hunger but the bottle is not sterilised yet. This list goes on...

With GROHE Red®, you can draw 99 °C water directly from the mixer without having to wait. Up to three liters. Simple. Economical. And with a responsible energy balance.

# GROHE RED®

GROHE Red® has been designed to accommodate the needs of all users and all types of installation. The collection features two sizes of mixer: Duo and Mono and two sizes of boiler: 4 litres and 8 litres. The larger Duo model replaces a standard kitchen mixer – enabling you to draw kettle hot water in addition to regular mixed water. The smaller Mono mixer supplies kettle hot water only and is the perfect companion to a GROHE Blue® water system.

## GROHE CoolTouch®

GROHE CoolTouch® technology insulates the mixer so well that you can touch it without any risk at all. Even for those little fingers that sometimes touch things they shouldn't. Our engineers have found a solution to childhood curiosity and grown-up absentmindedness.

## ChildLock

ChildLock does not rule out the possibility of scalding from 99 °C water, but it does make it practically impossible: for the kettle hot water to flow, you must first pull and then turn the left handle. This child-resistant feature has been independently tested and certified.

## GROHE Red® Titanium Boiler

All boilers in our GROHE Red® collection are made from titanium. Unlike stainless steel and copper, two metals traditionally used for boilers, titanium is highly resistant to corrosion and limescale build-up – ensuring perfect performance over a lifetime.

Titanium is also bio-compatible, hence why it is used in medical applications e.g. surgical instruments and implants. And as it imparts no metallic taste to the water, the kettle hot water that comes out of your GROHE Red® mixer will always taste exactly the same as it did before entering the boiler.

## GROHE Red® pays off. For you and the environment.

GROHE Red® proves that convenience and environmental awareness do not have to be mutually exclusive. In contrast to a water boiler or boiling water on a hob, with our innovation you only heat as much water as you need. This saves water, energy and even costs. In basic mode, GROHE Red™ boilers cost just 15 cents\* a day to maintain the water at 99 °C once heated.

\* Based on the average power costs for 2013 in Germany, depending on ambient and water temperature

# ALREADY AT HOME IN WELL KNOWN COMPANIES GROHE BLUE® AND GROHE RED®

Both innovative GROHE water systems complement each other perfectly.

For economic use in the office, we recommend the combination of GROHE Blue® and GROHE Red®.

So everything required in the office kitchen is available immediately and with the utmost efficiency:

- Filtered, chilled and sparkling tap water
- Kettle hot water
- Regular cold/hot mixed water

## Here are innovative, stunningly simple solutions for every office:

GROHE Blue® turns ordinary tap water into pure refreshment from the office's incoming water source. Water is chilled and emerges as still, lightly sparkling or sparkling – completely according to taste. The innovative water system is fitted with a filter that is concealed under the sink and removes the heavy metals, limescale, suspended particles, chlorine and other impurities that can impair taste and odour. Conventional tap water simply cannot compare with the fine taste of GROHE Blue®.

GROHE Red® simplifies life and speeds up the workflow. More hot drinks are consumed in the office than anywhere else. From now on, nobody needs to wait for the kettle to boil. So GROHE Red® saves time. GROHE Red® proves that convenience and environmental awareness do not have to be mutually exclusive. In contrast to a kettle or boiling water on a hob, you only heat exactly as much water as you need. This saves your company water, energy and costs.

## GROHE BLUE® CALCULATOR

Calculate how much money you can save with GROHE Blue®.

## GROHE RED® CONFIGURATOR

Configure your GROHE Red® watersystem in a few simple steps.

# KITCHEN SHOWROOMS

Here you will find your nearest kitchen showroom. Simply enter your town and postcode in the search box and select your product to find your GROHE partner.

# INSTALLATION & PRODUCT VIDEOS

Our tap videos give you advice for mounting our products, answer technical questions as well as explain our unique technologies.

# GROHE BRASSWARE

Make a statement in your bathroom with a GROHE basin mixer. From modern sculptural lines to traditional silhouettes, there's a style and shape to match every interior and budget. Like a fine piece of jewellery or a luxury watch your choice of bathroom product is a way of expressing your personal style and values. Not only do they add a chic finishing touch, they are a focal point too.

## Cool looks

Our exciting range of mixers comes in an amazing array of styles, sizes and configurations. We have modern, linear shapes to suit architectural spaces, contemporary styles for family homes and traditional designs to enhance period-style bathrooms. And with our different prices – there's a style to match every budget too. All of them are packed with the latest technology for a lifetime of smooth operation and low maintenance – one of the reasons why you'll find GROHE products in some of the world's best hotels.

## Perfect products

Thanks to GROHE's unrivalled technologies – developed over the past 70 years – dripping mixers and sudden surges of water are no longer an issue. Our superior cartridge design incorporates GROHE SilkMove® technology. The ceramic discs are made from a space-proven ceramic alloy with a smooth mirror-like surface – for smooth operation and an extra wide operating angle that enables precise control of temperature change. While GROHE StarLight® technology gives all our products a radiant life-long shine due to our superior chromium finish.

## Material gains

Basins made from materials such as glass, natural stone and ceramics are now common place in the bathroom and can be used to make a real style statement. Counter-mounted stone bowls in marble and limestone will add a cool touch of organic minimalism while a shallow rectangular tray is a perfect addition to the ultra-modern home. Whether you require a small tap to fit a tiny corner basin or a three-hole mixer set with tall, sculptural spout we have mixers to fit every basin permutation. And it's not just basins that benefit from GROHE's unbeatable technology and choice. Our bath mixers and bath/shower mixers lend a coordinated look to your bathroom and come with the added benefits of high flow rate and low noise level – convenient, comfortable and blissfully quiet.
